

XF type Hydraulic press brake type

Référence interne :

CARACTERISTIQUES:

- Compact design with limited footprint.
- Optimized installation and maintenance.
- Precise and high-quality bending.
- Modern design.
- Versatile machine suitable for a wide range of applications.
- Bending length of 3000 mm, available in 125-ton or 200-ton models.
- Affordable purchase cost, enabling rapid return on investment.
- Globally recognized hydraulic and electrical components.
