

## SMD 3 ÉDITION S

Référence interne :

---

## CARACTERISTIQUES:

---

- Versatile for all customer requirements - from R2 edge rounding to finishing
- Uniform edge rounding and multi-directional finish thanks to several brush heads
- 40% higher tool contact for outstanding results on edges
- Processing of very small workpieces by PowerGrip belt, magnetic track or vacuum table
- 30% less installation spaces thanks to space-saving design of the units
- Possibility of automation & integration in production lines
